THE HOSPITALITY & B2B CATERING OPERATING PLATFORM

Selected for Google for Startups Immersion EMEA (Powered by Antler)

Empowering Local Gastronomy.
Zero Middlemen. Real Value.

Speisely is replacing predatory 30% aggregator commissions with direct-to-kitchen ordering, 1-click WhatsApp reservations, and AI-powered B2B event catering across Europe.

Independent Gastronomy is Trapped by Predatory Monopolies

Aggregator portals take massive cuts while keeping customer relationships in closed gardens.

30% Commission Cuts

Legacy delivery platforms (Lieferando, UberEats) charge 15% to 30% on every order, wiping out razor-thin restaurant profit margins.

Up to €25,000 lost / year

Per-Cover Guest Fees

Reservation aggregators charge €1.50 to €3.00 for every seated guest, while restaurants own 0% of their guest relationship data.

Zero customer ownership

Broken B2B Event Catering

Companies spend €500–€3,000+ on office catering via slow, manual phone calls, static unpriced PDFs, and unstructured email chains.

Offline & Inefficient

A Unified, Fair-Fee Ecosystem: Speisely Platform

Direct-to-kitchen software, instant mobile reservations, and AI corporate catering.

0% Direct Ordering

Customers order directly from kitchens with Stripe Connect direct payouts. Restaurants pay a flat €34.99/mo subscription instead of 30% cuts.

100% Bill to Kitchen

1-Click WhatsApp Booking

Instant real-time table reservations via WhatsApp & Email with 0 € per-cover fees. Hosts retain 100% of guest data.

Frictionless Mobile CRM

AI B2B Event Catering

Corporate office managers submit natural-language briefings. Our AI Concierge matches vetted caterers for high-ticket bookings (€500-€3k+).

10% Take-Rate on Events

Built on Bleeding-Edge Silicon Valley Tech

No bloated WordPress. A custom-built, sub-second Server-Side Rendered operating stack.

0.48s

PageSpeed Load Time

TanStack Start + Nitro SSR engine delivers 40%+ higher mobile checkout conversion.

AI

Gemini Event Concierge

Natural-language event search parses dietary, headcount, and budget constraints into structured bids.

AEO

Google AI-Search Ready

Native llms.txt & schema integration ensures direct citations in Google AI Overviews and Perplexity.

IoT

Live KDS & CloudPRNT

Direct Star Micronics & Epson kitchen receipt printer hardware integration without app lock-in.

Massive, Recession-Resilient Market Size

Capturing high-margin transactions across Europe's fragmented food & event sector.

€110B

Total Addressable Market (TAM)

Total European hospitality, food delivery, and commercial event catering spend.

€24B

Serviceable Available Market (SAM)

DACH region (Germany, Austria, Switzerland) independent restaurant & B2B catering volume.

€180M

Serviceable Obtainable Market (SOM)

Target 5-year GMV capture across top 10 German metropolitan areas.

Diversified, High-Margin Revenue Streams

Combining recurring SaaS predictability with high-ticket transaction take-rates.

1. Restaurant SaaS

€34.99 / mo

Monthly recurring subscription for 0% commission direct online ordering, digital menu engine, and kitchen display tools.

Predictable MRR

2. B2B Event Take-Rate

10% Commission

Success fee charged on corporate catering bookings. Average Order Value (AOV): €850 per corporate order = €85 net take.

High Average Ticket Size

3. Agency & Digital Suite

€990 – €2.5k

High-speed custom website development, Google AI SEO, and automated WhatsApp booking setup for premium restaurants.

Cashflow Accelerator

Why Speisely Wins: The Fair Model

Aligning incentives with gastronomy owners rather than exploiting their margins.

Feature / Capability	Legacy Aggregators (Lieferando/Uber)	Reservation Portals (OpenTable)	Speisely Platform
Order Commission	15% – 30% Per Order	N/A	0% (Stripe Direct to Kitchen)
Table Reservation Fee	N/A	€1.50 – €3.00 / Cover	0 € Per-Cover (WhatsApp 1-Click)
B2B Event Catering Engine	❌ None	❌ None	✅ AI Briefing & 10% Vetted Booking
Guest Data Ownership	❌ Locked inside platform	❌ Restricted	✅ 100% Owned by Restaurant
Page Load Speed	4.5s – 8.0s	3.5s – 6.0s	0.48s (Sub-Second SSR)

Built-In Circular Economy: Food Waste Rescue

Fighting commercial food waste with smart automated end-of-day surplus bags.

Rettertüten (Surplus Meals)

In Germany alone, over 1.7 million tons of food are discarded by gastronomy every year. Speisely integrates an automated surplus rescue engine directly into the restaurant's daily menu flow.

- ✅ **Zero Additional Hardware:** Managed inside existing menu dashboard.
- ✅ **Profitable for Kitchens:** Converts waste into margin-positive revenue.
- ✅ **Acquires New Guests:** Budget-conscious foodies discover new venues.
